

15V 6A AC Converter Adapter

Specifications:

Input voltage: 100-240V AC 50/60Hz

Output voltage: 15V DC

Output current: up to 6A

Output power: 90W Max

DC plug pole: center positive(+), outer negative(-)

DC cable length: about 3.6ft Power cable about 3.9ft

DC output plug size: 5.5mm x 2.5mm (fit 5.5mm x 2.1mm plug)

It is perfect replacement for 5A/5.5A as the amperage is NOT forced. (If your previous adapter was lower than 6A, this will be a perfect replacement as the amperage is NOT forced.)

Package:

1 x DC 15V 6A Power Supply

1 x AC Power Cord

Note:

1. Please check whether the output connector size, output voltage and current match your device before purchasing.
2. If the output connector size, output voltage and current match your original charger, it will be compatible with your electronic product.

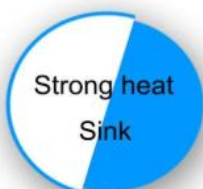

ABS Fireproof
Material

Efficient Anti-interference
Magnetic Ring

Glass Fiber PCB Board EMC Circuit System

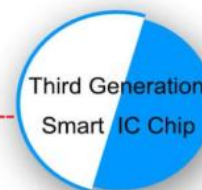

Strong heat
Sink

High-quality
Transformer

120uf Capacitor

Third Generation
Smart IC Chip

200 Turns Copper Wire Wound

Circuit Safe Running Safety Tube

Positive Polarity

Make sure the 5.5mm*2.5mm adapter could fit your devices
