

200W 6~35V to 6~55V DC/DC Converter Boost Charger Power Converter Modules with Aluminum

Description:

1 , the input voltage : DC 6 ~ 35V

2 , the output voltage : DC 6 ~ 55V (Note : This board is a booster plate , the output voltage can be greater than or equal to the input voltage)

3 , conversion efficiency : 97.6% (input 32V output 45V / 3A when measured , the efficiency with input voltage and output voltage and current related)

4, the maximum input power : 200W (30V input voltage is greater than the maximum power is reached)

5, the maximum input current : 10A (long hours , please leave a certain margin)

6, the maximum output current : 7A (Working long hours , please leave a certain margin)

7 , module size : 70x39x32 mm (length x width x height)

packing content:

100% Brand New

1 x 200W Boost Converter
