

**Link plates are copper**  
and the surface has a plating layer, which makes  
the copper not easy to oxidize and has stable performance.  
The thickness is 1.0mm.

**Weight: 2.1KG**  
**Size: 17 x 12.7 x 4.8 cm**

Product parameters:

Model: 3.2 V 90Ah

Attributes:Li-FePO4

Nominal volt:3.2 V.

Rated capacity:90AH

Net size of battery:172\*127\*48mm(Including screws:175\*130\*48mm)

Battery net weight:2100g

Max constant discharge current: 3CA(about 270A)

Charging voltage:3.6 V.

Discharge cut off voltage:2V

Cycle lifespan:2000 tims

Charging temperature: -25-65 °C

Discharge temperature:-25-65 °C

Order includes:

3.2V / 90Ah battery
