

Universal Socket ON/OFF Control: Offers precise power management for safe and efficient use.

50/60 Hz Compatibility: Works seamlessly with both AC power standards worldwide.

220V Protection: Safeguards devices against voltage fluctuations up to 220V.

Concealed Delay ON 5S/180S: Provides delayed activation for smoother power transitions.

TOMZN Brand: Known for reliability and quality in electrical protection solutions.

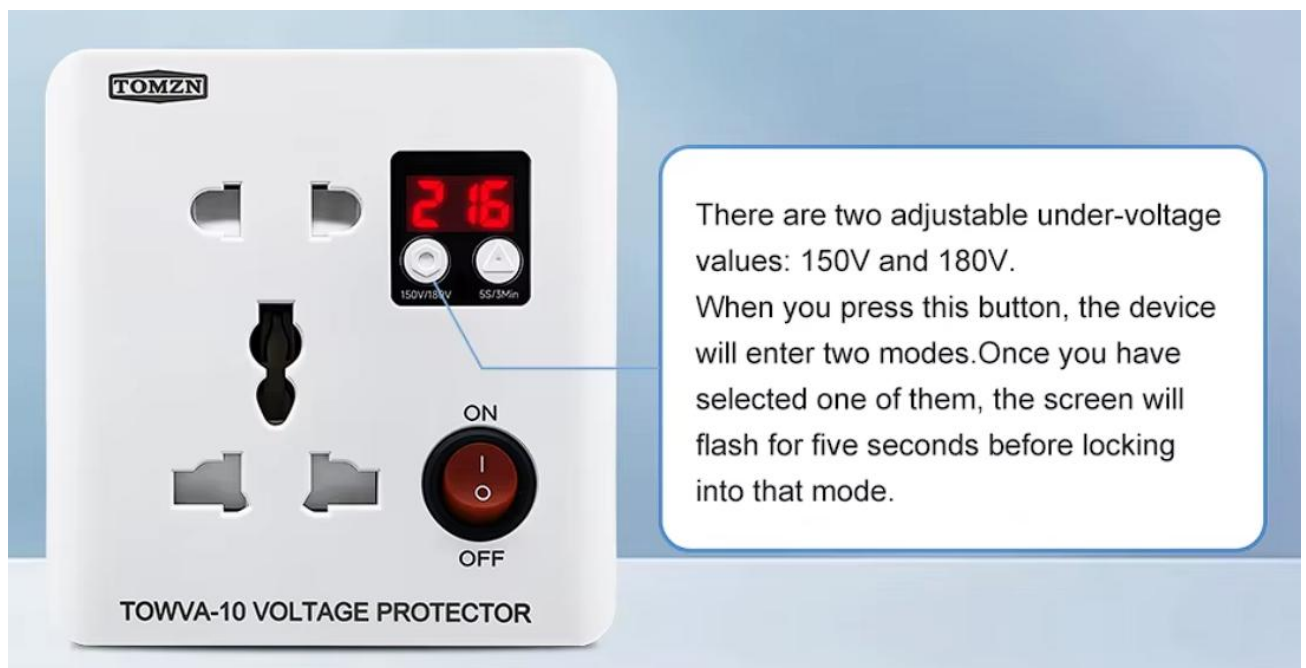

Functions: 1. Over-voltage protection 2. Under-voltage protection 3. Delay-ON 4. Automatic recovery 5. Voltage display(voltage measurement) 6. ON/OFF control

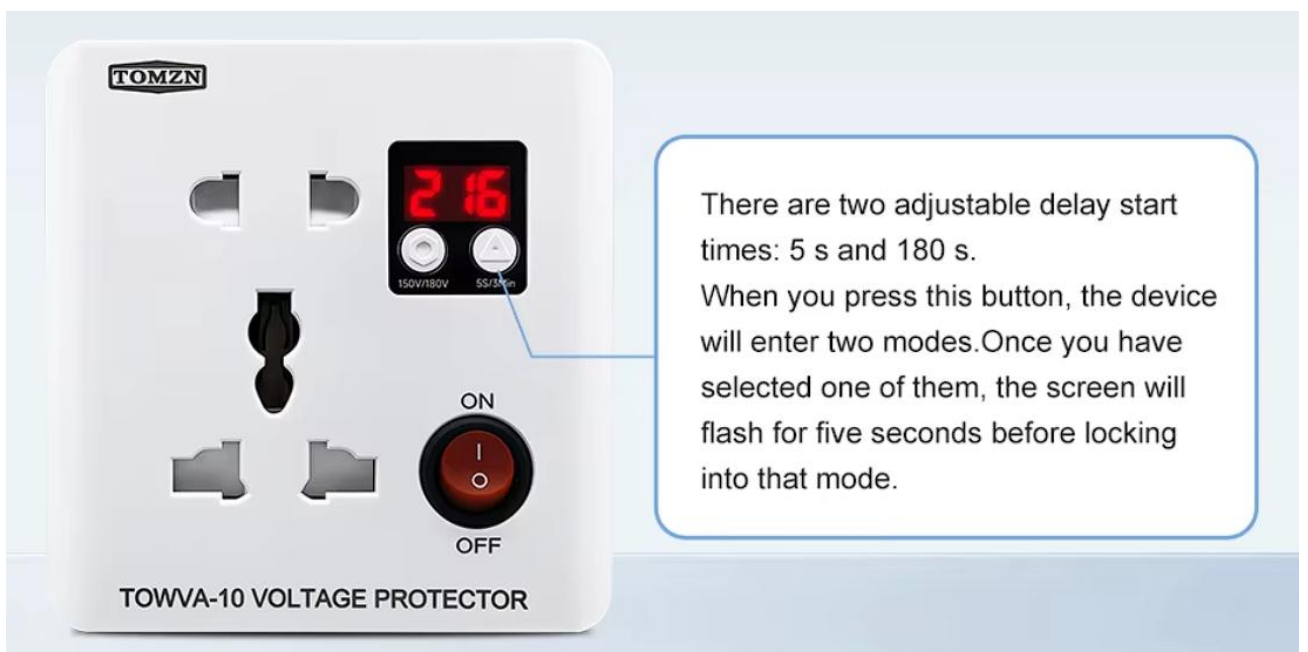

Product Parameters: 1.Model number: TOWVA-10 2.Power supply: AC 220V

50/60Hz 3.Max.Loading power: 13A 4.Over-voltage protection value: 270V

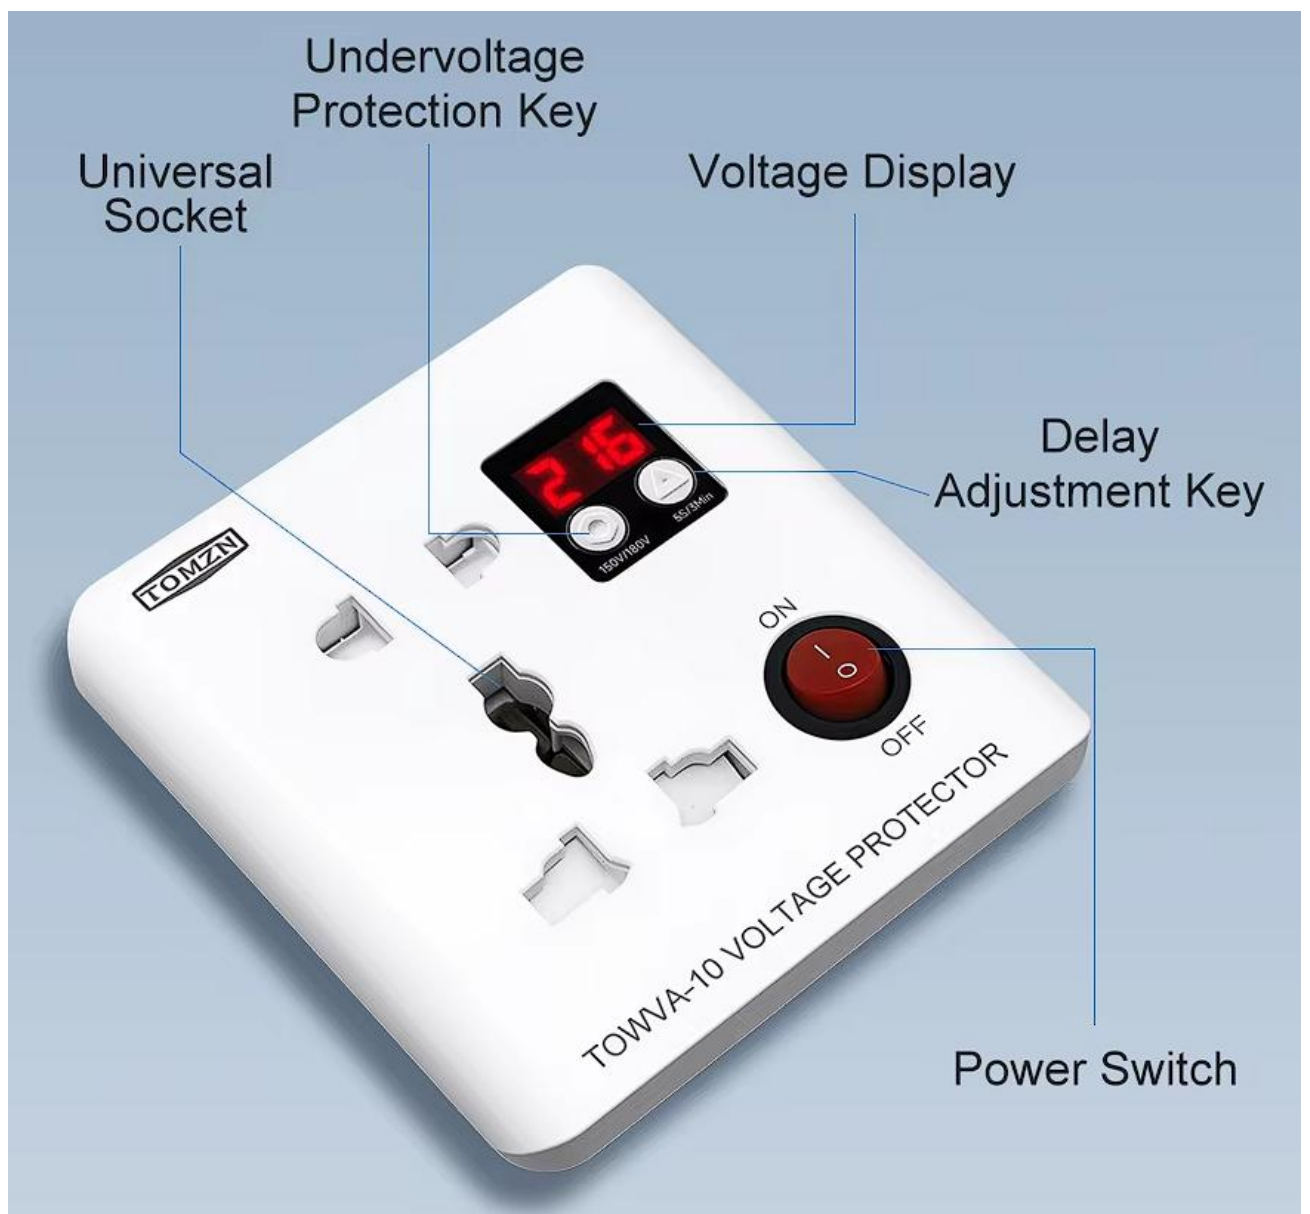

5.Under-voltage protection value: 150V/180V 7.Power-on delay time: 5s/180S

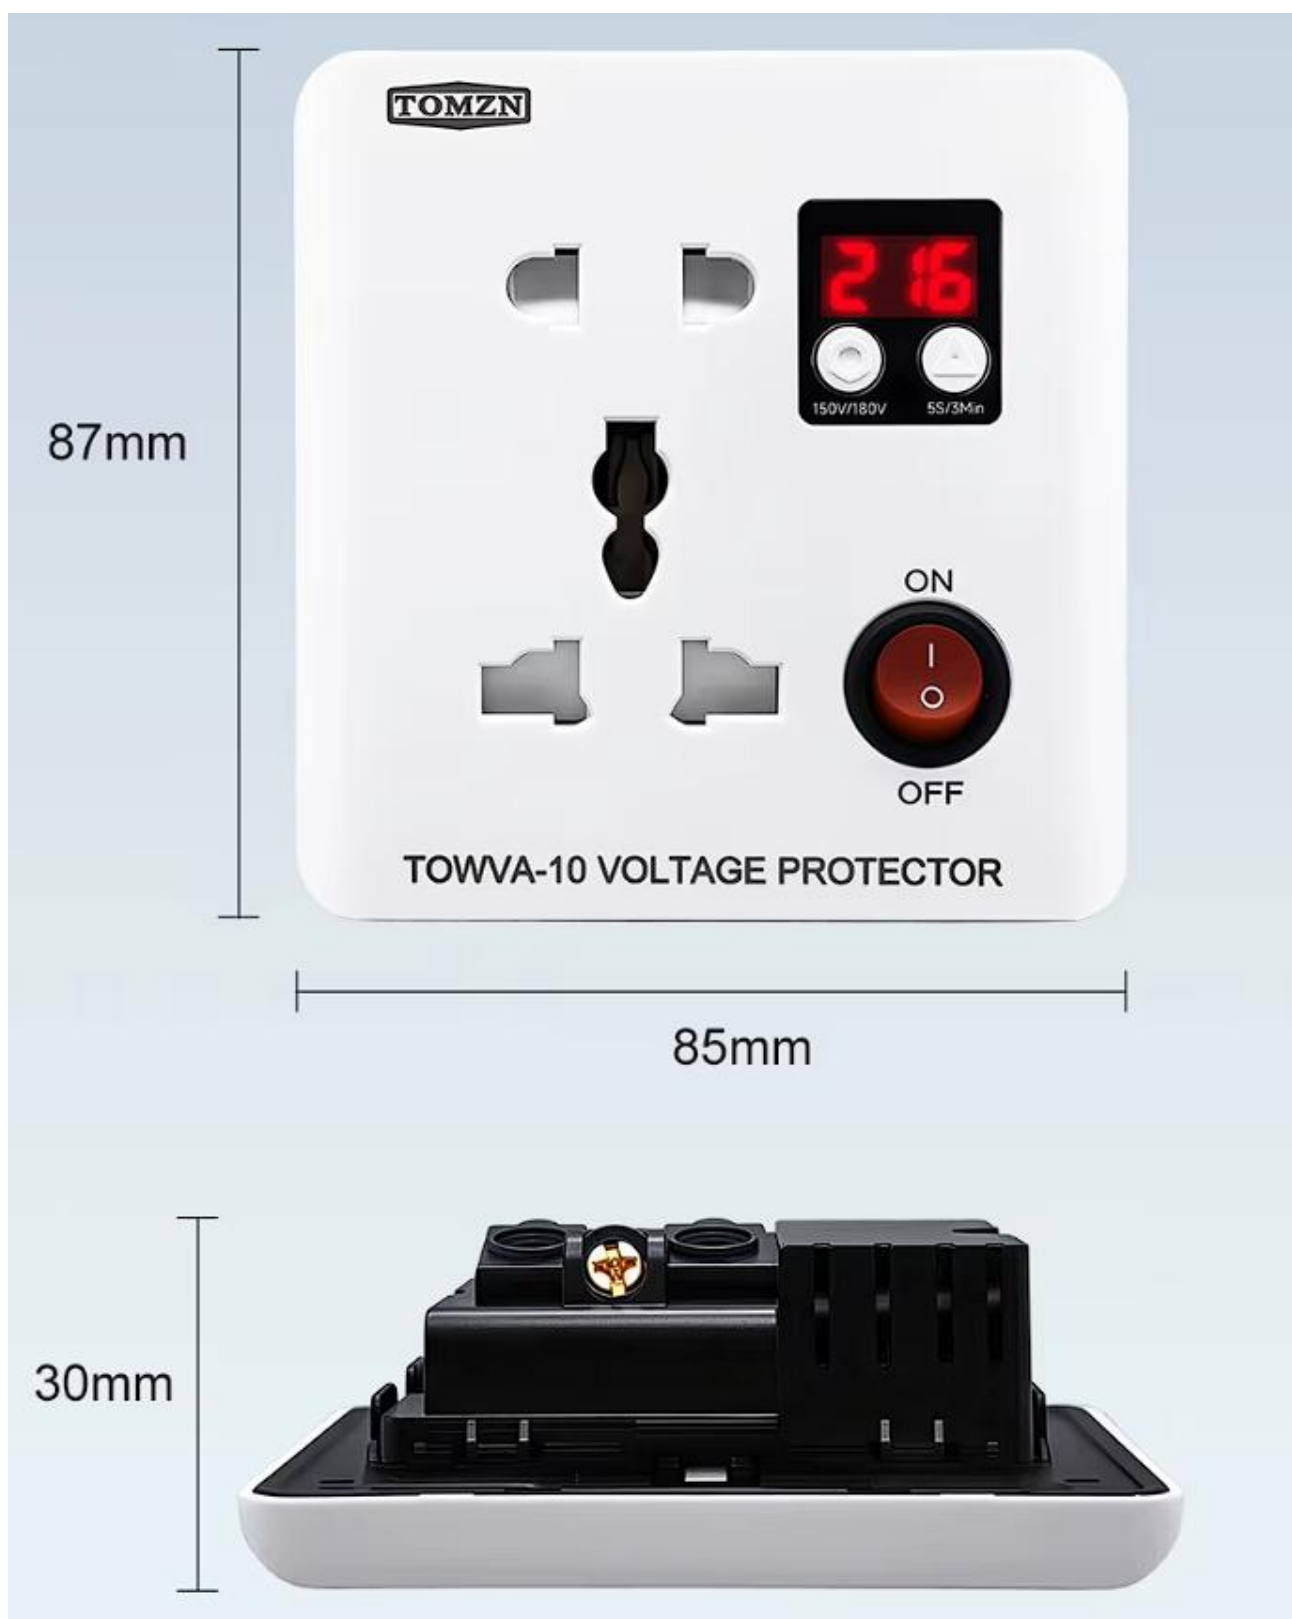

8.Power consumption: <2W NOTED: After adjusting the parameters, you need to wait for 5 seconds before the parameters can be saved.

Product name	TOWVA-10
Specifications and dimensions	87*85*30mm
working current	10A
working voltage	220V
delay time	5S/180S
overvoltage value	260V
undervoltage value	150V/180V

L PE N
